Raymond, Lui Ka Kit

Lead Software Engineer

RELEVANT WORK EXPERIENCE

Pokeguide Ltd – Hong Kong SAR
Public transportation navigation and e-commerce app with 50,000+ users

Software Engineer Lead 01/2024 – Present

- Led an Agile project team of 5+ software engineers to develop the navigation module, e-commerce module, and external projects to ensure the delivery of high-quality products.
- Teamed with software engineers, designers, and product managers on projects to ensure smooth communication.
- Overhauled legacy backend PHP code with OOP principles and proper framework, significantly improving code maintainability and reducing bugs by 50%.
- Streamlined deployment process with Docker containers, speeding up the project release timelines.

Senior Mobile Application Developer 08/2021 – 12/2023

- Flutter app development for the Pokeguide app.
- Utilized both Flutter and React Native to develop external mobile application projects.
- Migrated the navigation app, which was initially written in native languages, to Flutter in 6 months.
- Developed and optimized the routing engine for the navigation app, resulting in an 80% improvement in the graph initialization speed.

Mobile Application Developer 05/2018 – 07/2021

- Android app development for the Pokeguide app.
- Improved code quality by introducing MVVM architecture, reducing debugging time by 40%.
